

Clear Film Solutions

nanoDefense™ is a Self Cleaning Surface technology that uses a natural process called photocatalysis. The Earth's atmosphere relies on this remarkable process to destroy toxins and clean the air we breathe. In the presence of light, the **nanoDefense™** coating produces hydroxyl radicals which breakdown organic contaminants into water, carbon dioxide and harmless by-products. This process has been used to help clean surfaces in hospitals and medical environments for over 20 years.

nanoDefense™ is available in a coated clear film product that can be used on touchscreens, transparent surfaces, and as a clear overlamine. The product has a watermark to notify the customer they are using a protected cleaned surface while not impacting the view through it. As some environments and touch points experience more use and traffic than others, **nanoDefense™** is available in both a Professional and a longer lasting, more durable Industrial version.

Benefits of nanoDefense Clear Film Solutions

- Self Cleaning Surface technology that activates in the presence of light!
- Optically clear touch screen products for kiosks and touchscreens
- Clear overlaminates available to cover button pads or printed solutions
- Available in INDUSTRIAL and Professional coatings with products for indoor and outdoor use.

Available in

The materials, products, and services of UNITED HOSPITAL SUPPLY CORPORATION (DBA FENCO & LAB DESIGN), its subsidiaries and affiliates ("Seller") are sold subject to Seller's standard conditions of sale (available upon request). Although any information or recommendation contained herein is given in good faith, Seller makes no warranty or guarantee, express or implied, (i) that the results described herein will be obtained under end-use conditions, or (ii) as to the effectiveness or safety of any design incorporating seller's products, services or recommendations. Except as provided in Seller's standard conditions of sale, Seller shall not be responsible for any loss resulting from any use of its products or services described herein. Each user is responsible for making its own determination as to the suitability of Seller's products, services or recommendations for the user's particular use through appropriate end-use testing and analysis. Nothing in any document or oral statement shall be deemed to alter or waive any provision of Seller's Standard Conditions of Sale or this Disclaimer, unless it is specifically agreed to in a writing signed by Seller. No statement by Seller concerning a possible use of any product, service or design is intended, or should be construed, to grant any license under any patent or other intellectual property right of Seller or as a recommendation for the use of such product, service or design in a manner that infringes any patent or other intellectual property right.
